**NRAJ Statement
New Rochelle IDA
Cedar Street Wyndham Hotel
July 31, 2019**

My name is Michael Yellin I live at 38 Lakeside Drive. Thank you for this opportunity to provide testimony this evening.

I am co-chair of the New Rochelle Alliance for Justice, an alliance of faith, community, and labor groups organizing for equitable development and more equitable power sharing in New Rochelle.

I am here tonight to urge you, once again, as our public representatives, to reform the IDA requirements to ensure that projects receiving public subsidies are required to create good jobs for local residents.

Meaningful reform should include requirements that developers commit to hiring a portion of their workforce locally, so that the community can benefit from their project and provide a pathway to union apprenticeships for residents, as well as ensuring already existing union construction workers who live in our community have the opportunity to work here, too.

As residents, we believe that the wave of new development in the city can be harnessed to create broadly shared prosperity in our community. Unfortunately, we've watched with dismay as developers have collected tax breaks without generating meaningful economic opportunity in return. Projects that benefit from public dollars are contributing to a race to the bottom for local construction workers as developers hire low road, lawbreaking contractors.

You can create the conditions for more equitable development by attaching strong, enforceable labor standards to the subsidies that these projects receive. This will ensure that any developer benefitting from tax breaks or other subsidies will provide a level playing field for responsible contractors who provide fair wages and benefits, including life-saving apprenticeship training.

What is happening here in New Rochelle is unacceptable. The projects that you, our representatives, are subsidizing with our tax dollars are not benefitting New Rochelle residents nearly enough.

The available data is irrefutable. Don't take it from me, ask the Development Dept. What types of jobs are residents getting? Are they low-paying dead end jobs or are they family supporting jobs that will allow New Rochelle residents to rent or buy homes, jobs that include health insurance and pensions? We deserve no less from the investments we make through the IDA.

When you go home, take a look in the mirror and ask yourself if the decisions you are making live up to the goals of the IDA. How would this IDA score if audited by the State Comptroller under whose authority you work?

You can do better. You must do better. We are watching.

Thank you.
