L.R.A./L.P.E. FIELD INSPECTION CHECKLIST – COMMERCIAL BUILDING

The following describes the manner in which the building subject to Permit Number _____ complies with the New York State Energy Conservation Construction Code (“ECCC”):

1. Insulation. Indicate from Table 802.2(3) of the ECCC the applicable U Factors, R Values and Solar Heat Gain Coefficients for the building envelope.
2. Sealing of Building Envelope. What method of sealing the building envelope was used to comply with Section 802.3(3) of the ECCC.
3. HVAC Equipment Performance Requirements. Show the compliance of the HVAC equipment installed in the building as per Section 803.3.2 of the ECCC pursuant to table 803.3.2(1)-(6) by submitting the specifications for the HVAC unit(s) installed in the building and separately list the applicable equipment type, size category, subcategory or rating condition, and minimum efficiency ratings of the unit(s).
4. Service Water Heater. Show the compliance of the Service Water Heater(s) installed in the building pursuant to Section 804 of the ECCC and all applicable sections by submitting the specifications for service water heater(s) installed in the building and separately list the applicable equipment type, size category, subcategory or rating condition, and performance required for the water heater(s).
