Introducing New Technology & Equipment

Metered parking payments just got easier in the City of New Rochelle, thanks to recent upgrades by Laz Parking. Using **Parkmobile** and **Cale America** technologies, our new terminals and mobile applications featuring “find my car software” will enable parking patrons in the downtown area to pay and extend parking not only at “smarter” machines but also through their mobile devices.

Don't be late– remember your plate!

Write down your license plate on the business card you'll get from LAZ during Customer Appreciation Days. Or, snap a picture of your plate with your cellphone.

At the new Cale Meters

- **Add time** to your parking session
- **Pay for a violation at a discount** on the same day (before midnight)

Through the Park Mobile App (available for all wireless devices)

- **Pay for Parking Remotely** (no need for change, or to walk to the pay station or meter)
- **Add time** to your parking session
- **Receive parking alerts** (system will notify you if you parking session time is close to expiring).

REMINDER: You now need to enter your license plate number at all machines.
